## I. LEGAL COMPLIANCE

Kindly consult with your financial, investment, and tax advisors before being a part of the Initial Coin Offering (ICO).

### Purpose

The purpose of this White Paper is to introduce BitPenta and its products, Bitcoin mining solutions and the Penta Token to our existing clients and prospective token holders in accordance with the planned ICO. The sole purpose of this document is to offer apt information related to investment in trading, mining and Tokens. The information asserted here does not bind clients/potential token holders/Bitpenta in any statutory relationship.

- This White Paper is not an invitation for investment
- It is not subject to laws of any jurisdiction of any country
- The Penta Token is not a financial instrument or commodity
- It has not been registered in any country

This White Paper shall be deemed the fitting source of information about BitPenta Limited offering

- Cryptocurrency Trading
- Bitcoin Mining Solutions
- Penta Tokens

### Tokens Are Not Legally Binding Investment

Penta Tokens are sold as a functional utility. The User understands, recognizes and consents that Penta Tokens are not legally binding investments. They are not securities and aren't registered with any country or government unit. The User possesses no right to obtain any imbursement arising from the BitPenta trading platform.

## Uncertainties

The BitPenta platform is subject to changes. BitPenta may experience slowdown during a low economic environment and if the cost of maintaining the platform goes beyond due to new executed policies, BitPenta may opt to put a hold on the operations and services.

## II. CRYPTOCURRENCY TRADING & MINING

### Investing In Cryptocurrency

Cryptocurrency are all about confirmation. As long as a transaction is pending or unconfirmed it can be forged. And, when it is confirmed, it can't be reversed. Cryptocurrencies are entries about token in decentralized consensus-databases and to invest in them mean sound money that is secured from any outside influence.

### Cloud Mining

Cloud Mining is the process of using hardware power to mine cryptocurrency. Cloud mining does not require users to own any Bitcoin mining hardware or technical expertise making it easy and available for Bitcoin enthusiasts across the world.

As easy as it may sound, not all Cloud Mining services are created equally. The reputation and security of the mining company, the price of Cloud Mining, and the flexibility of the Bitcoin mining contract are few factors that should be taken into consideration.

### Risk v/s Rewards

Engaging in any type of cryptocurrency trading or mining involves risks, but high profitability is possible with the right choices.

## No Guarantee On Trading

BitPenta is in no case to be held responsible for the circulation and trading of Penta Tokens. The trading of tokens is dependent on its value and market partaker.

### III. BITPENTA LIMITED

#### About BitPenta

A UK registered company, BitPenta Limited is an online trading platform. BitPenta specializes in cryptocurrency trading and Bitcoin mining solutions. BitPenta has been in this business for more than a decade now, trading on Forex and Stock Market with private clients since 2005. Our professional traders have 12+ years of experience in Forex and Stock Market and since 2013 they have been trading full time on cryptocurrencies. Since they have a tight grip on daily, mid, and long-term trading, we are here to provide daily and secure income.

#### 1) Cryptocurrency Trading

Trading cryptocurrency in its simplest form is buying and selling of currencies; betting on the changing price difference between different currencies. Sharp price movements combined with leverage and experience of our professionals can quickly produce substantial results. When trading with BitPenta, you are trading only on the price change of the digital coin and not physically purchasing it.

#### 2) Bitcoin Mining

It is a simple process by which transactions are verified and are added to the block chain. Cryptocurrency mining is also the process through which new cryptocurrency are released. Although, it is an expensive process, with BitPenta sourcing the best place for most profitable mining all over the -

world it enables you to earn Bitcoins without managing hardware, software, electricity, hosting issues, heat, installation or upkeep trouble.

## Why BitPenta?

The BitPenta platform is entirely based on trust. It is the platform for future saving and also a way to earn daily profits and live a secured life. With this platform we wish to develop a healthy client relationship by offering quality services and lucrative returns. With quite a few years of experience behind us in both Cryptocurrency Trading and Bitcoin Mining, with BitPenta Limited we offer our clients the finest conditions for long-term and safe earnings.

Our professional traders will trade for you giving you the best possible margins on daily trades and the best part is that our day trading loss is not implemented on your accounts. We will bear all the losses for you because we are here to provide you secured and trustworthy revenue so the risk are a minimum.

## Fund Allocation

- Development Of Mining & Trading
- Marketing
- Litigation
- Security

## Penta Token Development & Distribution

Funds acquired from the ICO will be utilized to develop the different sectors of the BitPenta platform.

### 1) Development of Mining & Trading: 70%

A major part of the funding which we will collect from the ICO will be implemented on mining sector to get secure profits and take the business to a higher level for our clients.

### 2) Marketing: 10%

10% of the funding which we will collect from the ICO will be implemented on the marketing sector. The crypto-coin market is already getting too crowded and in order to be best we would require being unique and effective with our marketing.

### 3) Litigation: 9 %

9% of the funding which we will collect from the ICO will be implemented on the litigation sector. Since cryptocurrency is a new and evolving area of law, it is essential to keep working on the Litigation and Dispute Resolutions part to assist with any contentious matter.

### 4) Security: 11 %

11% of the funding which we will collect from the ICO will be implemented on the security sector to make the BitPenta platform safer and secured so there is no breach of security or theft of the cryptocurrencies owned.
